Name: Adi Sharabi-Nov Date: 22.11.2024

CURRICULUM VITAE

1. Personal Details

Permanent Home Address: HaGoren 24, POB. 215, Metulla 10292

Home Telephone Number: 050-8480184

Office Telephone Number: 04-8181618

Cellular Phone: 050-8480184

Electronic address: adinov@telhai.ac.il, adi_nov@hotmail.com

ORCID iD: 0000-0002-0141-127X

2. Higher Education

Undergraduate and Graduate Studies

Period of Study	Name of Institution and Department	Degree	Year of Approval of Degree
2019-2022	University of 'Alexandru Ioan Coza, Iasi, Romania. Sociology and Social Work department.	Ph.D.	2023
2013-2017	University of Haifa, School of Public Health.	MPH (Epidemiology)	2017
1995-2000	University of Haifa, department of statistics	MA (Applied Statistics)	2000
1989-1993	University of Haifa, department of mathematics	BA (Mathematics and Computer Sciences)	1993
1984-1987	Tel Hai College	Technical Computing Engineering	1987

MPH thesis (subject, institution, supervisor, date of receipt of the degree, cite honors)

Examination of the factors relevant to the prevalence of GBS bacteria among Jewish parturient in northern Israel - a comparison between orthodox and secular women. School of Public Health, Haifa University. Supervisor: Ronit Almog, March 2017

3. Offices in Academic Administration

2013-2023: Statistics adviser, Tel Hai Academic College

4. Participation in Scholarly Conferences

a. Active Participation

Date	Name of Conference	Place of Conference	Subject of Lecture/Discussion	Role
26-31 March, 2000	Postharvest 2000 International Meeting	Jerusalem, Israel	Is the Acoustic Response of Fruits a Measure of Firmness or Turgor?	
August 7-10th, 2006	Proceedings of the IVth international conference on managing quality in chains MQUIC 2006	Bangkok, Thailand	Controlled atmosphere storage of pomegranate	
August 13-19, 2006	27th International Horticultural. Congress & Exhibition (IHC 2006), COEX (Convention & Exhibition)	Seoul, Korea	Postharvest handling of passion fruit	
13-14th March, 2009	Israel Society for Vision and Eye Research (ISVER) Meeting	Jerusalem, Israel	Non-Compliance with Ocular Hypertensive Treatment in Patients with Primary Open Angle Glaucoma Among Arab Population in Israel- A Cross-Sectional Descriptive Study	
April 22-26th, 2009	9th Israeli Medical Association World Fellowship International Conference	Tel Aviv, Israel	Detection of breast cancer by analyzing MUC-1 antigen induced changes in lymphocytes fluorescent intensity	
20th June 2011	Ministry of Health Medical Symposium	Jerusalem, Israel	Blood lymphocyte subsets as a marker of post-traumatic stress disorder	
25th October, 2011	Bio-Medical conference	Tel-Hai, Israel	Plasma levels of Placental Protein 13 (PP13) and Renal fractional excretion of Uric acid at mid-pregnancy, are associated with the appearance of late preeclampsia	
9-10th November 2011	Israel Society of Maternal-Fetal Medicine Meeting	Tel-Aviv, Israel	Plasma Level of Placental Protein 13 (PP13) and Rental Excretion of Uric Acid in mid-Pregnancy may Predict the Appearance of Late Preeclampsia	
19-21st April 2012	The Israeli Society of Nephrology and Hypertension	Caesarea, Israel	Renal Handling of Uric Acid Combined with Serum Levels of Placetal Protein 13 (PP13) in Mid-Pregnancy May Predict the Development of Late Preeclampsia	

June 4-7th, 2012	International Nursing Conference - Nursing: Caring to Know, Knowing to Care	Jerusalem, Israel	Association between managerial position and cardiovascular risk factors: A cross-sectional analysis in hospital nurses	
12-19th September 2012	The 12th Euro Conference on Clinical Cell Analysis	Budapest, Hungary	Leukocyte Alkaline Phosphatase (LAP) by Flow Cytometry May Be Easier and More Convenient than the Classical Histochemical Method	
20-22nd September, 2012	Eating Disorders Research Society, 18th Annual Meeting.	Porto, Portugal	Night Eating Syndrome Among Women: Clinical Characteristics, Eating Patterns and Psychopathology	
11th October, 2012	Bio-Medical conference	Tel-Hai, Israel	Finding blood-based breast cancer biomarkers by studying novel MUC1 peptides	
10-13th February 2014	7th Congress of the Federation of the Israel Societies for Experimental Biology	Eilat, Israel	Detection of breast cancer from blood through analysis of lymphocyte fluorescent intensity using MUC1 antigen	
7th October, 2015	Bio-Medical conference	Tel-Hai, Israel	The relationship between nutritional status, mitochondrial activity, oxidative stress and clinical status in multiple sclerosis	
20-24th May, 2016	European Society of Homan Genetics.	Barcelona, Spain	Medical staff approaches towards undergoing genome sequencing as part of their medical training	
8-10th September, 2016	Inaugural Mediterranean conference - Integrity as a Way Forward	Athens, Greece	Searching for Academic Moral Health	
8-10th November, 2016	Israeli Pain Association	Eilat, Israel	The basic knowledge of care givers about pain, and the patient satisfaction from the pain treatment	
10th of November, 2016	Israeli Society of Maternal-Fetal Medicine Meeting	Tel-Aviv, Israel	Prevalence of GBS bacteria among Jewish women in labor from northern Israel	
24-26th May, 2017	Plagiarism Across Europe	Brno, Czech Republic	Academic Integrity in Higher Education: The Case of a medium-size College in the Galilee, Israel	
25-29th June, 2017	16th World Congress in Fetal Medicine	Ljubljana, Slovenia	Prevalence of GBS bacteria among Jewish parturients in Northern Israel- a comparison between Observant and Secular Women	
25-29th June, 2019	18th World Congress in Fetal Medicine	Alicante, Spain	Establishing a differential marker profile for pregnancy	

			complications near delivery	
26-30th June, 2022	19th World Congress in Fetal Medicine	Crete, Greece	The relationship between the prevalence of Group B streptococcus colonization and ritual water immersion among Jewish families	
6th July, 2022	The 7th annual scientific conference of the Israeli Society of Medical Education	Beer-Sheva, Israel	Burnout in Israeli medical students: lessons to be learned	
14-17th Sep. 2023	XV World Congress of the International Society for Immunology of Reproduction (ISIR) 2023	Hamburg	Plasma level of Placental Protein13 (PP13) in Placental-Derived Extracellular Vesicles (PEV) is elevated in patients with preeclampsia but not in preterm delivery and the impact of corticosteroids	
*23-27th June 2024	21st World Congress in Fetal Medicine	Lisbon, Portugal	Uterine artery pulsatility index and TNFα as dual markers for early preterm delivery and late FGR: a secondary analysis	
23-27th June 2024	21st World Congress in Fetal Medicine	Lisbon, Portugal	First-trimester preeclampsia prediction in twins by cell-free fetal DNA (cffDNA) fraction, placental growth factor (PLGF), and mean arterial pressure (MAP)	
23-27th June 2024	21st World Congress in Fetal Medicine	Lisbon, Portugal	A multicenter prospective analysis of fetal malformations in twin pregnancies detected throughout pregnancy	
25-28th Sep. 2024	SMFM Global Congress	Rome, Italy	First trimester preeclampsia prediction in twins by fetal fraction of cell free DNA and PlGF	
25-28th Sep. 2024	SMFM Global Congress	Rome, Italy	Uterine artery pulsatility index and TNFα as dual markers for early PTD and late FGR	

b. Organization of Conferences or Sessions

Date	Name of Conference	Place of Conference	Subject of Conference/ Role at Conference/ Comments	Role
March, 2023	Galilee Research Conference	Tel-Hai	Gender medicine - women's health in the Galilee	Organization of a session
			The relationship between the prevalence rates of GBS bacterium and the level of religiosity of Jewish women from northern Israel	Lecture

5. Invited Lectures\ Colloquium Talks

Date	Place of Lecture	Name of Forum	Presentation/Comments
May, 2022	Ramat-Gan, Israel	Israel Society of Obstetrics and Gynecology	Presentation of the PhD results

6. Research Grants

Grants Awarded

Role in Research	Co-Researchers	Topic	Funded by/ Amount	Year
Researcher and Statistician	Co-PI	Resilience among families with children with chronic diseases or genetic illness	15,000 NIS Mashabim	2015

48. Doron, H., Hen, M. & **Sharabi-Nov, A.** (2018). Relationship quality among chronically ill children and their parents. Journal of Child and Family Studies 27(12), 3866-3876. https://doi.org/10.1007/s10826-018-1228-8

7. Scholarships, Awards and Prizes

a. Grant

10,000 NIS from the gender equality unit.

b. Awards

2004, 2007, 2011: Excellent Teaching Fellow Award, Tel-Hai Academic College

2018, 2019, 2021: Excellent Teaching Fellow Award, Faculty of Medicine in Galilee, Bar-Ilan University, Zefat.

8. Teaching - Courses Taught in Recent Years

Year	Name of Course	Type of Course Lecture/Seminar/ Workshop/High Learn Course/ Introduction Course (Mandatory)	Degree	No. of Students
2003-2024	1. Descriptive and Inferential Statistics 2. Research Methodology	Teaching Assistant (Mandatory)	BA	90-120
2017-present	1. Descriptive and Inferential Statistics 2. Research Methodology	Lecture (Mandatory)	M.Sc.	5-15
2023	Seminar B - Planning and writing a thesis in Nutritional Science (with Prof. Snait Tamir)	Workshop for M.Sc. students (Mandatory)	M.Sc.	5-10
2024-present	1. Descriptive and Inferential Statistics 2. Research Methodology	Lecture (Mandatory)	BA	50-60
2023 - present	Co-supervisor for professional thesis on Educational Psychology in the Department of Psychology.	Name of student: Bat-El Shani Kronenfeld. Name of supervisor: Prof Meirav Hen Name of study: An increase in the risk of eating disorders among young people during the Corona pandemic - a meta-analysis. Stage: Data collection	MA	1

9. Miscellaneous

Active Participation in Workshops

1. March 2011 - MEPIET (Middle East Program for International Epidemiology Training). The workshop was given by MECIDS (Middle East Consortium on Infection Disease Surveillance) and ICDC, Ramat Rachel, Israel.
2. January 2016 - Meta-Analysis workshops, given by Biostat NJ USA, Tel-Aviv, Israel.
3. July 2016, GCP (Good Clinical Practice) Sefad, Israel
4. December 2018 - Advances in Fetal Medicine course, given by the Fetal Medicine Foundation, London, UK

10. Professional Experience

2008-present: Statistician, Ziv Medical Centre, Safed.

2018-2021: Teaching Fellow of Descriptive and Inferential Statistics, Faculty of Medicine in Galilee, Bar-Ilan University, Zefat.

1994-2007: Statistician, Fruit Storage Laboratory, Kiryat-Shmona

PUBLICATIONS

A. Ph.D. Dissertation

Examination of the factors relevant to the prevalence of GBS bacteria among Jewish parturient in northern Israel - a comparison between orthodox and secular women. The Faculty of Philosophy and Social-Political Sciences, Sociology and Social Work Department, “Alexandru Ioan Cuza" University in Iasi. Supervisor: Stefan Cojocaru. December 2022, 228 pages, English.

E. Summary of my Activities and Future Plans

My research focuses on women's health with an emphasis on epidemiological aspects. This is reflected in my master's and doctoral research as well as in studies that I have initiated or act as a pivotal team member with different research groups.

Collaboration with International Research Groups

1. PreTwin Screen Project

PreTwin Screen is a multi-national project is funded by the European Commission (under the Thema of Personalized Medicine) and the respective National Healthcare Research Authorities Ministry of Health in Israel. The Consortium is led by Shamir Medical Center in Israel, with partners from the University Hospital of Tübingen and Bonn Medical Center (both from Germany), McGill University Medical Center, Montreal, Canada, Hospital Clinic and University of Barcelona, Span, and Fondazione Policlinico Universitario Agostino Gemelli IRCCS, Rome, Italy.
This is a prospective cohort, aimed at monitoring all pregnancy complications in twin pregnancies, which are more frequent than in other pregnancies, and to develop new international standards for perinatal care for twin pregnancies, including diagnosis and prevention. The research in currently in the analysis stage after we recruited

approximately 800 women. I am responsible for supervising the database and the statistical analysis. One paper of this study was already published, a second one is in the final stage of acceptance for publication, and a third on is under analysis. It is estimated that the research will yield >10 manuscripts that are in different stages of analysis, statistical analysis, and manuscript preparation.
Intermediate reports have been submitted to the European Community and we are in the process of completing the data collection and analysis for the final report.

2. Research of markers in a cohort of pregnant women from Slovenia

The research was conducted as part of the European Community ASPRE Project and is partly funded by the Medical School of the University of Slovenia. The aim of the research was to examine biochemical and biophysical markers and their accuracy in predicting suspected complications in pregnancy close to the time of delivery, in order to produce aiding tools for the doctor in differential diagnosis.
This research has yielded four articles that have been published (53, 60, 61, 70) and another one is in preparation. I am the first author in three of the published articles (53, 61, 70) and in one upcoming article.
In addition to the researchers from Israel and Slovenia, we also partnered in this research with world leaders in the field of fetal medicine and the study of the placenta, such as:
Prof. Kypros H. Nicolaides, the Director of the Fetal Medicine Institute of King's College Hospital, and the director of the Fetal Medicine Foundation, London, UK, the world leader of fetal medicine.
Prof. Berthold Huppertz of the Division of Cell Biology, Histology and Embryology, Gottfried Schatz Research Center, Medical University of Graz, a leading researcher in study of the placenta.

3. Research of medication and models for the prevention of preeclampsia

As a part of the ASPRE project in fetal medicine supported by the European Community, a research team was formed with members from the Island, Israel, the USA in collaboration with Austria and Italy. We examined different methods for enriching the blood circulation of pregnant women with unique protein components that were found to be in shortage among women who develop complications in pregnancy, particularly hypertension, intra-uterine growth restriction, and gestational diabetes.

Future plans

Research on passive smoking in women (a continuation of Publication 55 on the subject)

a. Study of the effect of passive smoking on kidney disease (in the Department of Nephrology, Ziv Medical Center, Safed)
b. Study of the effect of passive smoking on the development of "calluses" on the vocal cords (ENT Department, Ziv Medical Center, Safed)

Research in medical procrastination among women (a continuation of an article that is in preparation)

The study of medical procrastination among:

a. Female teachers (in collaboration with Tel Hai Katzrin Campus)
b. Mothers of children with special needs (in collaboration with Levinsky-Wingate College)
c. Arab women from northern Israel (in collaboration with the Gynecology Department, Ziv Medical Center, Safed)

Articles in preparation

1. **Sharabi-Nov A**., Grinshtain, Y., & Bechar Katz, I. The Niddah law and practices as shaping Jewish women's individual, couplehood and family life.

2. Regev-Avraham, Z. Kordero, L., & **Sharabi Nov A**. Self-rated health and procrastination in female hospital nurses: a cross-sectional study.
